Ra²: the Extraordinary Adventures of Baron Munchausen is a side-scrolling action-adventure game where players explore seven intriguing environments of the universe, each with its own strange and amazing creatures. Baron Munchausen is an immortal being that starts out as a poor baron, but the circumstances of life he faced changed him. Now, with the help of a group of formidable companions, he must embark on a search for the kidnapped son of the king of Narnia, save the princess from the clutches of a disfigured demon, and return a fabled sword to its rightful owner. Mystereum has created a stunning, fully playable, motion capture based world - in which the player becomes the main character, Baron Munchausen. With a new and believable acting system, full gameplay mechanics including puzzle solving, an online multiplayer mode and an extensive extra content, Mystereum has brought a completely new and original approach to the side-scrolling action-adventure genre. Features: • An all new and original side-scrolling action-adventure gameplay • New fully playable Motion Capture based world where the player becomes the main character, Baron Munchausen • Seven different environments to explore, each with its own unique inhabitants and situations. This environment includes mazes, cityscapes, jungles, outcrops, castles, dungeons and ocean environments. • Fully playable gameplay with a plethora of puzzles to solve, a huge arsenal of weapons, new magical spells to cast and hire mercenaries. • An extensive extra content, with an online multiplayer mode, new weapons, spells and levels. Key Features: • Live Motion Capture • Fully playable gameplay • Completely new and original approach to the side-scrolling action-adventure genre • Full network support • Six playable characters • Seven different environments • An extensive extra content, with an online multiplayer mode, new weapons, spells and levels • Original music by Pau Damià Riera Description: "Ra²: The Extraordinary Adventures of Baron Munchausen will take you on a spacebound journey that will challenge and surprise you. Army Of Tentacles: Cheat Mode With Key [Win/Mac]

Army of Tentacles: Cheat Mode is a first-person shooter game designed for the Microsoft XBOX 360 and other game consoles. By using your mouse or the keyboard, you can view and destroy objects, play mini games, navigate the environment, and much more. This strategy game gives you the chance to become a hero in a world where you are surrounded by an army of monsters. You'll be able to shoot, explode, destroy, and do whatever else it takes to make it out alive! The long-awaited sequel to the cult classic "Contra: Hard Corps", "Contra: Shattered Timelords" comes with a number of improvements and new features. It improves the gameplay and graphics but also changes the old one, to get a faster pace of action, the story, and the atmosphere. This is also the first sequel that was built from the ground up using the power of the latest Windows technology so it's more than fast and smooth. Are you prepared for "Stealth Inc. 2"? It's a brand new masterpiece, a sequel to "Stealth Inc.", a game about sneaking into places, stealing things and keeping yourself safe. What's new in "Stealth Inc. 2"? - Discover a wider range of deadly enemies (the mayhem in the streets will not be over soon). - A lot of new tools: new gadgets, new items, new abilities - New maps (even bigger than in "Stealth Inc."). - Ninjas return! - More gadgets to discover. The game was built from the ground up using the power of the latest Windows technology. We are proud to bring you the game on such a great platform, but we know you want more content. What is it? What did we work on during the year? We're here to tell you about a new game: "What Remains of Edith Finch". We don't want to spoil you the story of "What Remains of Edith Finch", but we want you to know this is going to be a highly emotional and engaging experience. From the very first scenes you'll think you're going to see the same static and cliched horror movie you've seen a hundred times before. Then suddenly it starts to evolve, and you start to discover some interesting details d41b202975

Play Firefly Online now from £0.99/€1.99/AU\$1.99 for Android & iOS. Tobias Pynx is the name that you probably know better as the young prodigy. He has played video games since he was five years old. He was part of the super-fansites and played almost all of them. When he was fifteen, he got his own account at Niffelheim. When he was sixteen, he got his first computer, which had a 32-bit operating system. When he was seventeen, he got his own house and got his first Xbox. As he got older, he got richer, and now he has many games, a lot of money and a huge bag of parts to play with. His favourite thing to play are first-person shooter (FPS), third-person shooter (TPS), action, adventure, and everything except platform. He gets about ten hours of gaming a day. His favourite games are first-person shooter (FPS) games like Bioshock and Bioshock 2, (third-person shooter) like Gears of War and Gears of War 2, action like Call of Duty: Black Ops, adventure like Uncharted and S.T.A.L.K.E.R., and everything else. He has a Facebook and a Twitter, and is writing a book. While he writes books in his spare time, he is also very happy with real life. His favourite word is "it", and he thinks that he should also be a good example of the statement "If it isn't broken, don't fix it". He has made his first worlds, and is planning his second. What's new:

- **“Are You *his?? - Call 999”** Telltale described **“The Army of Tentacles: Cheat Mode”** as the answer to the question **“What will happen if you just take out all the other four boxes from the cabinet?”**. The box with the bloody hand (!) and the white tentacle. For now, we’ll stick with **“cabinet”** as the answer, but it does bring in some interesting questions. It doesn’t answer them, mind you, but it’s a great little walk down the backstreets of your mind. Cheat Mode begins with our player character fresh from an RPG session with the Invisible Thief of Filippiope Town, Ricardo E. Games. He and a friend were playing **“Defenders of Prosperity”** in the town’s underground. Filippiope, it seems, is a heavily guarded city, so Ricardo was happy to team up with the Sheriff to stop escapes. It was funny to be in the middle of the city, disrespected by thieves and claimed by the most audacious constable you’ve ever met (unless your name is **“John Rummery”**). The game was fun so far, but Ricardo has a bad feeling. Something in the air. Yes, there’s definitely something ominous going on. We begin with a title screen - not a very helpful one, really - and then one of those little skits is played twice. Then we’re in the street and this one occurs: **“Finally!”** Ricardo thinks. **“Now, where’s that rat-cage?”** Our player, however, is ignored by Ricardo, whose loud, intrusive, obnoxious and purely appalling inability to stop talking and instead try to take control of the situation is apparently what this game is all about. First, he starts talking about how the Thieves Guild is really scary people that want to kidnap you and keep you locked in a dungeon. Then he points out that the entire city is basically under the control of the Thieves Guild. They carry all the cash, they control the guards, there’s even an entire diorama in the entrance hallway of the dungeon, and frankly, if that doesn’t scare you, you’re a bigger wanna-be hacker than the game seems to think you are. So, what are you going
